University Life-Long Learning Service at Adult Education Festival

Caucasus International University Life-Long Learning Service participated in “Adult Education Festival” on 1-2 July, 2016.

The aim of the festival was to promote the concept “Life-long Learning” among the society with the assistance of various events.

The conference “Adult Education and Local Development” was held at the first day of the event.

The second day of the festival was opened by the marching of the Movement Theatre. The visitors had an opportunity to become familiar with the wide range of the providers of adult informal education in the open air: university life-long learning centres, adult education programs of vocational institutions and education centres from different regions.

Caucasus International University Life-Long Learning Service exhibited a separate stand at the festival. Visitors and interested individuals became familiar with the information and visual materials presented by the university about the events and educational courses which are implemented at our university on regular basis. Further, mutual collaboration has been planned between a number of participant organizations and Caucasus International University during the event.

The festival included some entertainment programs. Adult Education Centre trainers offered interested individuals master-classes on origami, knitting and painting.

In addition, exhibition of the works were held at the event.

“Adult Education Festival 2016” was organized by the initiative of DVV International Georgian Office and the support of Tbilisi City Hall.
