

Provision for Undergraduate Studies at Caucasus International University

Preamble

Undergraduate Educational Programmes at Caucasus International University (hereinafter shall be referred to as – “University”) comply with Law of Georgia on Higher Education, national standards of Institutional Accreditation and requirements of Bologna Convention. According to the Legislation of Georgia, higher education represents the next cycle after general education, ensuring to develop competences relevant to the educational cycle and is confirmed by corresponding documents of qualification. Undergraduate study is the first cycle of academic higher education, involving teaching basics for relevant field of expertise, being essential for pursuing professional activities under qualification and continuing studies on Post-graduate educational programmes.

Chapter I. General Provisions

Article 1. Undergraduate Educational Programmes

1. Undergraduate study represents the first cycle of academic higher education and combination of educational programmes, involving preparing students according to the field of expertise and teaching theoretical basics of corresponding profession, being essential for continuing studies on Post-graduate educational programmes or pursuing activities under the qualification. Undergraduate Educational Programmes include no less than 240 credits.
2. This provision applies to first-level medicine and dentistry single-level programs as well, except for the specific conditions stipulated by the law on higher education, the industry standard and the curriculum of the program. (01-32, 27.03.2024)

Article 2. Language of Instruction

1. Georgian is a language of instruction at university;
2. A foreign language can be determined as a language of instruction partially or fully in compliance with accredited educational programme at some faculties in agreement with Ministry of Education and Science of Georgia.

Article 3. Mode of Studying

Full-mode studies are available for undergraduate educational programmes.

Article 4.

Financial Support for Undergraduate Studies

Studying at an undergraduate cycle involves paying a tuition fee. Financing is carried out on the basis of students' tuition fee, the number of which is determined by a decree issued by Chancellor. The amount of the tuition fee and

duties and responsibilities between the university and a student of undergraduate studies are regulated on the basis of agreement.

Article 5. Aims and Objectives of Undergraduate Educational Programmes

Undergraduate Educational Programmes aims at:

1. providing students with higher professional preparation than general education for launching professional activities with the competences under Bachelor's Degree.
2. forming general knowledge as intellectual resources essential for developing professional competence and civil awareness.
3. revealing and developing students' capabilities comprehensively as well as forming a reasonable academic motivation.
4. making students become comparatively deeply aware of theoretical aspects of academic disciplines, forming theoretical foundations essential for continuing studies on the post-graduate cycle and generate general skills, thus preparing an individual for further education on post-graduate cycle and practical professional activity with the help of research programmes.
5. elaborating academic programmes focused on employer's requirements.
6. creating academic environment focused on students.
7. facilitating/promoting student mobility.
8. integrating into Euro-American educational field, implementing European Credit Transfer and Accumulation System (ECTS).

Chapter II.

Acceptance- Registration for Undergraduate Educational Programmes

Article 6. Acceptance-registration for undergraduate programmes and educational agreement

1. Students are accepted at Undergraduate Educational Programmes on the basis of passing Unified National Examinations and the ranking document and decree on students' enrollment issued by Minister of Education and Science of Georgia. Students are also accepted on the basis of regulation for reviewing and mobility results after submitting the following document – "University entrants/candidates for post-graduate educational programmes/students being entitled to continue studies in higher education institution without passing Unified National Examinations/ Unified Post-graduate Examinations".
2. A decree on enrolling students in corresponding undergraduate programmes is issued by Rector on the basis of the documentation provided about accepting students by Ministry.
3. Students are obliged to go through an administrative registration within deadline and submit the following documents after Rector's decree on accepting students is issued:
 1. Secondary School Leaving Certificate – Original one;
 2. A copy of ID Card;
 3. 4 photos 3X4;
